GET 'SMART' AT ALBERTA HARDWOOD FLOORING

What if there was a process that allowed 30 times more flooring to be produced per tree than conventional hardwood? What if the flooring produced using this environmentally conscious process was both beautiful and durable? What if this environmentally friendly, beautiful, and durable product was available in a myriad of colours, smooth and textured finishes, micro-beveled edges, and the famous 'Uniclic' joint system? Wouldn't that be a 'smart' idea?

Alberta Hardwood Flooring carries the complete line of **TORLYS** products, including the distinctive 'smart' hardwood line. Think of it as a marriage of convenience; tradition and technology joined as one to allow more durability and stability, and maximum gap and dent resistance – so your beautifully natural flooring will stay looking naturally beautiful for a very, very long time!

Whether your style is traditional, exotic, or anything in between, Alberta Hardwood Flooring has the TORLYS 'smart' floor for you. Choose from the *Everest lines* – the distinctive and unique 'exotics', or the rich-grained vintage-style 'americas'. TORLYS Summit Collection of premium hardwood with its modern clean lines will add an elegant touch to any space, and the retro-classic look of TORLYS Montcalm Collection offers a fresh interpretation of traditional strip hardwood.

What's more, TORLYS 'smart' hardwood features the patented 'Uniclic joint' which allows ease of installation. The click joint process is reversible too, so you can *re-install* your TORLYS 'smart' floor up to 3 times under warranty! And remember, TORLYS 'smart' floors are produced with much less waste using precision cutting and assembly techniques.

What a 'smart' collaboration – Mother Nature made the hardwood; TORLYS made it better! TORLYS 'smart' hardwood flooring is waiting for you at Alberta Hardwood Flooring.
