## NOT YOUR GRANDMA'S HARDWOOD FLOORING!

---

Years ago hardwood flooring options were extremely limited. There were few colors to choose from, and the few that were available were a bit on the bland side. Innovation was not a word typically associated with the wood flooring industry. If you wanted something different, you had to look at other flooring options.

Times have certainly changed. Wood flooring has gone from bland to grand. Today, wood flooring is not only one of the most durable and cost-effective floor coverings; it's also one of the most innovative choices, with *species*, *styles* and *colours* to satisfy every taste.

Alberta Hardwood Flooring carries an extensive selection of traditional and engineered hardwood flooring. It's not your grandma's hardwood flooring; it's wood flooring crafted for today's discerning and style-conscious buyer. The color choice is exceptional and runs the gamut from the Elegant honey-hued classic shades, to rich reds, and tawny taupes. The Stylish Collection includes grey-beige shades, pale white-washed tones, and even chocolate brown, charcoal and black offerings.

Not only do you have more color choice, but there are more and more species to choose from in the Natural collection including *Tigerwood*, *Cabruva*, and *Sapelle*. Widths range from the narrow 2 inch strips to 3 ¼ inch strips in traditional hardwood, and from 2 9/16ths inch to 5 inch wide strips in the engineered collection. Thick, thinner, smooth or textured - it's your choice! And because you select the color, species, width, and thickness, you end up with a hardwood floor that reflects your taste to perfection. You can even add an exquisitely crafted medallion for dramatic effect. Quality and innovation await you at Alberta Hardwood Flooring, Edmonton and Calgary.
